Languages: Java, PHP, JavaScript

Web Technologies: Node.js, React.js, Express.js, Laravel, jQuery, Bootstrap 5

Databases: MySQL, MongoDB

Version Control: Git, GitHub, Tertoise SVN

Core Concepts: REST APIs, MVC Architecture, DSA, Object-Oriented Programming

WORK EXPERIENCE

Softaculous pvt. ltd | June 2025 - Present

PHP Developer

Develop and maintain custom WordPress plugins to extend website functionality and improve user experience. Implement WordPress hooks, filters, and REST API integrations to build scalable features. Debug and optimize plugin performance and database interactions. Collaborate with developers to design secure and maintainable solutions.

EDUCATION

Mumbai University | 2021-2024

Bachelor of Science in Computer Science (B.sc CS)

CGPA - 8.33

Mumbai University | 2025-Present

Masters in Computer Applications (MCA)

2025 - Present

PROJECTS

Real-Time Chat Application (MERN + Socket.io)

Developed a real-time messaging application where authenticated users can send and receive messages instantly using Socket.io with backend API integration.

SkillSwap Platform (MERN Stack)

Created a skill-exchange platform where users can connect and share skills. Implemented authentication, user profiles, and interaction features.

Real Estate Management System(PHP + MySql)

Developed a responsive real estate management platform using HTML, CSS, JavaScript, and PHP. Implemented secure user authentication and role-based access control for users and administrators. Created CRUD operations for property listings and user management. Designed separate dashboards for admin and users to manage properties and inquiries.
